WANTS COAL ON FREE LIST

Cleveland Stands Firm for Coal.

SENATE WILL NOT YIELD

Conference May Be Discharged Tonight.

Senator Hill Has No Hopes of an Agreement Being Reached—Many Senators Discouraged at the Outlook—The Republic of Hawaii Officially Recognized in the United States.

WASHINGTON, August 9.—The president still insists that coal shall be put on a free list, but Senator Gorman declares that the senate will never yield. It is possible that before the day closes a motion will be made to discharge the senate conference from further consideration of the bill.

WASHINGTON, August 9.—There is still a feeling of uncertainty this morning in congressional circles regarding the outcome of the tariff bill. Senator Hill says that he will believe that an agreement has been reached which will satisfy the House, Senate and president, when he sees a written statement to that effect, and not before. He does not take such a rosy view of the situation as some other democrats. He says he sees several dangerous snags ahead of the final passage of the bill. Many of the democratic senators express their disappointment at the terms of the agreement.

Tomorrow May See the End of It.

WASHINGTON, August 8.—The "tomorrow" upon which the tariff conference have been for weeks promising an agreement at last gives promise of fulfillment. When the tariff conference adjourned at a few minutes before 6 o'clock tonight it was with the understanding that at the session tomorrow morning all the details should be arranged and republicans called in in the afternoon and informed of what their democratic colleagues had done. One of the most prominent managers on the part of the Senate made the emphatic statement that tomorrow would see the end of the conference, and that by night there would be either an agreement or a general breakup of the conference. But one thing, he said, could postpone the result any longer. Should the House conference agree to an agreement and the arrangement of the details consume such time as to run the work over into the next day, that would be permitted, but otherwise the close of tomorrow would witness the end of the labors of the conference on the tariff bill. So little is yet to be accomplished, however, that there is every likelihood that the republicans can be called in at an early hour and there would be no surprise if the Senate should have the report of the conference at a reasonably early hour in the afternoon.

POLAR TERRORS.

Terrible Experience of Captain Bottolfsen, Steamer Crashed.

A Tromsø, Norway, cablegram in today's Baltimore American says: Captain Bottolfsen, who brought to this place the news of the loss of the Wellman polar expedition, gives further details of the adventures of the Wellman party. He says that the expedition reached Walden Island on May 21, when the pack ice was becoming troublesome. Mr. Wellman and his party started north on sledges on May 24. On May 28 the screwing of the ice commenced in real earnest. Near the steamer were icebergs which towered as high as the yardarm of the vessel's masts. While the crew were drinking their afternoon coffee on that day, the steamer was suddenly crushed by the ice as if it were a match. The water rushed in with terrific force, and in a few minutes the vessel was a complete wreck. The crew in the meantime had escaped to the shore.

An express party was sent after Mr. Wellman, and overtook him and his companions at Martin Island. Wellman, Dodge and two others returned to Walden Island and held a council. Captain Bottolfsen, Webfeldt and a sailor volunteered to go and seek for sealing vessels to the southward. Mr. Wellman resumed his journey northward on May 31, but Bottolfsen and his party were unable to start on their trip, owing to the heavy pack ice, and were still detained at the island on June 23, when Sando, Iversen, Winslip and Heyerdahl returned from Mr. Wellman, owing to lack of provisions and to trouble in regard to ice and water, with orders and mails from Wellman, who had gone forward. On June 27 Captain Bottolfsen and his party started southward in search of sealers, hauling behind them a twelve foot aluminum boat. They passed four terrible weeks of storm and heavy snow, sometimes hauling their boat, and sailing and rowing where there was open water. In this way they travelled 430 miles along the Spitzbergen Islands. They were compelled to throw away nearly all their extra clothes and much of their equipment, as the boat was overloaded.

Their passage across Heclaen Strait was particularly difficult and dangerous. All of the party were wet to the skin, and the cold being intense, their sufferings were severe. The cold on the nights of July 10 and 12 was simply awful. In a hut at Mossel bay they found and repaired an old gig. On July 13 they tried to cross Wijde bay, but were obliged to return, owing to the fog and ice. They made another start on the 15th, but the ice proved too dense, and they were obliged to abandon the gig and proceed, hauling the aluminum boat. Seven Norwegian sealers were seen east of the Norse Islands, but they failed to respond to the party's signals.

At Norse bay they found Norden skjold's hut, where a provision depot was maintained by a Tromsø skipper named Sreiazon. The party had to take their boat around Welcome Point. On July 19 they were taken aboard the steamer Malygen, Captain Pedersen. Heyerdahl was landed at James Island to join Professor Oyo, who was well but still declined to leave the island.

Mr. Daniels to Assume Control.

RALEIGH, Aug. 8.—Your correspondent had a talk with Mr. Josephus Daniels, who says that this week the company which will own and manage the News and Observer will be organized. It will have \$15,000 or \$20,000 of paid up stock, most of which is now subscribed. A good deal has been taken this week. Mr. Daniels will have direction of the editorial management. He will have assistance. He will probably move the office up town. He desires to secure a building well adapted for the purpose. Of course the paper will have an entire new outfit. All the parties interest met today to discuss business. It is said Captain Ashe, who for fifteen years has been the editor, will retire in a few days.

China Will Not Give Up Her Suzerainty.

SHANGHAI, August 8.—It is officially reported from Tien Tsin that the efforts of Great Britain and Russia to bring about a peaceful settlement of the disputes between China and Japan have failed. China is willing to pay an indemnity, but she refuses to surrender her suzerainty over Corea. The Chinese government has closed the Amping and Takao light houses on the Island of Formosa.

RELIEF FOR KOREANS.

Movement in Behalf of Famine-Stricken Sufferers Taken Shape.

NEW YORK, August 8.—The movement to send relief to the famine-stricken Koreans has already taken shape and is being vigorously pushed. In response to the effort of the Christian Herald, of New York, to contribute 1,000 barrels of flour to any cargo that may be sent to that country the Korean minister, Ye Sung Soo, yesterday telegraphed the following from Washington:

The Christian Herald, Bible House, New York: Your noble and generous contribution of 1,000 barrels of flour substantially starts the movement to relieve my starving countrymen. My heart is full of gratitude to you for your prompt assistance, and I will notify my government of the relief that they may expect from this country. It fills my heart with pain and regret that my starving countrymen and prostrate government cannot find means to transport the contribution you have so generously started. In a day or two I shall be able to advise you whether the shipping point shall be New York or San Francisco. The latter port would be better. I remain, with great respect, your obedient servant.
YE SUNG SOO.
Minister of Korea.

Dr. Louis Klopsch has forwarded the following dispatch to the secretary of state inviting the assistance of the government in forwarding the proposed cargo:

Hon. W. Q. Gresham, secretary of state, Washington, D. C.: The pathetic appeal made by the Korean minister in behalf of his starving people evokes widespread sympathy. If means of transportation can be secured, a large cargo of grain for relief of these starving multitudes can be quickly provided. Will the United States government undertake the transportation from either New York or San Francisco?

THE CHRISTIAN HERALD.

It is further proposed to secure the co-operation of the various boards of trade and exchanges throughout the country, and especially at San Francisco and Chicago. The cargo when completed will probably clear from the former port, and it is believed that a guarantee of immunity of seizure either from China or Japan will be granted.

The Japanese Capture Seikioan.

YOKOHAMA, August 8.—Additional battles have been fought between the Japanese and the Chinese, and the latter have been defeated.

Seikioan has been taken by the Japanese with trifling loss. The Chinese loss, in this engagement, was 500 killed. The enemy died in the direction of Koshu. The Japanese are in possession of Yashan. An imperial ordinance, just issued, permits Chinese to reside in Japan on condition that they engage in peaceful purposes. The greatest excitement prevails here, at Tokio, and at other large towns, as a result of the victories of the Japanese troops. Rumors, however, are current here that Japanese naval forces have been defeated in an engagement with Chinese warships.

Recognizes Hawaii.

WASHINGTON, August 8.—While Representative McCreary, of Kentucky, was presiding over the committee of the whole in the House this afternoon, he was notified that Secretary Gresham desired to see him in the speaker's room. When Mr. McCreary returned to the chair after his interview with the secretary he declined to say what had occurred, but it was subsequently learned that the secretary had notified him that the republic of Hawaii had been officially recognized by this government. The official announcement of the recognition will probably be made tomorrow.

A Card.

We desire to express our sincere appreciation of the kindness and consideration shown by our friends during the time of our late bereavement. Nothing was left undone which could help to lighten our burden, and the deep sorrow that is upon us is brightened by the Christian sympathy so generously bestowed.

DEMOCRATIC PLATFORM.

The Democrats of the State Submit Their Declaration of Principles.

The democracy of North Carolina submit to the voters of the state the following declaration of principles, viz: Resolved

1. That we reaffirm the doctrines of the party as enunciated by the Chicago convention of 1892; and desire to signify as follows what is the construction placed by us upon the section thereof relating to silver, viz: We hold that it is the duty of the law making department of the government, now in the hands of the democracy, to take immediate steps to restore by legislation the equal privileges of silver with gold at the mints, by the free and unlimited coinage of both gold and silver at the ratio of 16 to 1, such being the ratio of coinage which heretofore has held in the United States.

2. That we urge upon the said law-making department of the government the abolition of the unconstitutional and prohibitive tax of 10 per cent upon the issues of state banks.

3. That, in view of the depleted condition in which the late republican administration left the treasury of the United States—presenting as it did, such a lamentable contrast to the overflowing condition in which it was delivered by Mr. Cleveland's first administration to its republican successor—we urge upon the said law making department, the immediate enactment of an income tax.

4. That we emphatically approve the tariff doctrine enunciated by the Chicago platform.

5. That while we are opposed to the slightest qualification, in favor of the federal government, of the repeal of the ten per cent tax on state bank issues, we nevertheless advocate as a matter of state policy such regulation and restriction of the issues of banks chartered by North Carolina as will secure a sound currency.

7. That we admire the courage and lofty patriotism of the president, and that we most heartily commend his prompt and effective action under the law for the suppression of the efforts of alien anarchists to disturb, by force and violence, the true relations of labor and capital; this sturdy efforts to secure the enactment of tariff reform as called for in the party platform; his prompt approval of the bill repealing the federal election law; the notable reduction of the expenses of government under his administration, and freedom from scandal which has been such a marked feature of his return to the head of affairs.

We point with pride to the record of the democratic party in North Carolina and endorse the present state administration. For eighteen years this party has had full control of the state government. It has administered it with the greatest economy and at all times with an eye single to the best interests of all the people. Coming into power at the end of a reign of debauchery and crime, it addressed itself to the work of rehabilitation and its record is one which challenges public admiration. It has rebuilt our public school system; established asylums for the care of our unfortunate; administered justice; promoted our public works; fostered every public enterprise; reduced taxation, and in all respects justified the confidence of those who have trusted it. It has afforded security to life and property, protected both capital and labor in its rights, and done all that government can do for a people. No scandal has attached to its administration of public affairs. We congratulate our citizens upon their well reposed trust in it; we congratulate them upon the friendly relations existing between the races; upon the prospects of bounteous crops and returning prosperity. With the record before them we appeal to them for a vote of confidence this year in the democratic party.
